

İBRAHİM ERTEKİN

CONTROL AND AUTOMATION ENGINEER

About Me

My control and automation adventure has started in Nazilli Anatolian Technical High School in 2010. I continued with Istanbul University "Control and Automation Technician" in 2015.

In 2018, I have started at Yıldız Technical University, Department of "Control and Automation Engineering". I graduated in 2024.

I have had 3 technical internship experiences so far and I have improved myself in areas such as scada, plc, hydraulic, pneumatic, image processing, embedded systems and control systems.
